1. [] - GLC) [] of OSR, called concerning a query they had received from Mr. Stoertz at the SALT talks for information about the "clearances" of Senators Pastore and Symington and Representatives Anderson and Hansen as well as staff member George Murphy of the Joint Committee on Atomic Energy. I explained to [] that we did not clear members of Congress as such, but that all of the members mentioned have been exposed to information at the highest security levels, including compartmented information, and that Murphy has all the clearances for this material. In response to a further question, I advised [] the JCAE had not been briefed on the "missile holes" since the Director briefed that Committee prior to the acquisition of the information about them. Senator Symington did receive this information, however, in briefings of the Senate Armed Services Committee and the Senate Foreign Relations Committee.
